B.Des	National Institute of Fashion Technology, Kannur	9.0 (Current)	2023-Present
Fashion Management (Minor)	National Institute of Fashion Technology, Kannur	Grade: A	2024-Present
Senior Secondary	Jawahar Navodaya Vidyalaya, Palakkad (CBSE)	89.4%	2022
Secondary	Jawahar Navodaya Vidyalaya, Palakkad (CBSE)	84.4%	2020

EXPERIENCE

- AI Ramz MEP Designs** Sept. 2026
Product Designer & Web Developer (Freelance) Remote
 - Designed and developed a 0→1 responsive website based on client requirements.
 - Created sitemap, user flows, and UI Design in Figma; developed using HTML, CSS & JavaScript.
 - Managed deployment, domain, SSL, hosting, SEO optimization, and Google Analytics.
 - Collaborated with the client through iterations to align the website with brand and business requirements.
- Xplor AI Mobility** Jun. 2026 - Aug. 2026
Product Designer (Internship) - [Certificate](#) On-site
 - Worked within the Product Design team on Xplor's mobility platform, contributing to UX research, user testing, information architecture, interaction design, and UI across bus and metro experiences.
 - Benchmarked 42 mobility, travel, and finance apps, analysing journey planning, transit discovery, and multimodal UX to identify opportunities for Xplor.
 - Identified usability issues through existing-flow analysis and user-testing feedback, redesigning key journeys across search, bus discovery, schedules, account linking, and journey planning.
 - Designed a Universal Search and Multimodal Journey experience that explored point-to-point travel combining bus, metro, walking, and first/last-mile connections across different journey scenarios.
 - Redesigned the bus search, availability, cards, and schedules, improving information hierarchy and introducing relevant alternatives and a route-request flow to capture unmet transit demand.
 - Collaborated with Product, Design, and Technology teams through design reviews, iteration, documentation, and handoff, while contributing to product QA and campaign-related UI/visual communication.
- ReflexLabs AI** Nov. 2025
UI/UX Designer (Internship) - [Certificate](#) Remote
 - Redesigned the ReflexLabs AI website with a cleaner structure and modern visual language.
 - Ideated new design elements and created interactive components to enhance user engagement.
 - Improved overall user flow, clarity, and brand experience.
- NIFT Kannur** Jun. 2025 - Sept. 2025
Print and Graphic Team, Converge 2025 (Student Assistant) - [Certificate](#) On-site
 - Part of a 10-member core team developing the brand identity for Converge 2025 (Inter-NIFT annual event).
 - Led design and production of the official Playbook, and created including standees, direction boards, and visual assets using Adobe Creative Suite.
 - Produced 40 custom mementos for SDAC delegates using laser etching (RDWorks V8), aligning with the event's visual identity.
- InAmigos Foundation** Jun. 2025 - Jul. 2025
Graphic Designer (Internship) - [Certificate](#) Remote
 - Designed posters and visual content for social impact campaigns, including Project Bachpanshala.
 - Created engaging reels to drive social media awareness and support the "Join as a Volunteer" campaign.
 - Explored and applied generative AI tools for video content creation and enhancement.

PROJECTS

- Dinely - Group Dining Decision Making App** Feb. 2026 - Ongoing
UI/UX, Product Design [Project Link](#)
 - Designing an ongoing group dining app to simplify restaurant selection, address decision fatigue, and support diverse dietary needs.
 - Applied UX research, Affinity Mapping, Personas, User Flows, Sitemap, and Information Architecture to build a collaborative decision-making and fair item-based bill-splitting system.

- **Stryde**

Nov. 2025 - Dec. 2025

UX, Product Design

[Project Link](#)

- Conceptualized STRYDE, a premium sports theatre **addressing the lack of structured public viewing spaces in India**, creating an immersive, stadium-like experience for diverse sports audiences.
- Designed the end-to-end experience through **spatial planning, 3D modeling, and high-fidelity renders**, incorporating features like tiered seating, tunnel-style entry, and integrated F&B zones to enhance user engagement.

- **AlexaBot**

Oct. 2025

UX, Product Design

[Project Link](#)

- Conceptualized a **mobile, companion-based voice assistant**, reimagining Alexa as an **interactive product through character-driven and modular design** (convertible form, customizable accessories).
- Executed the design through **sketching, ideation, and 3D modeling, producing high-fidelity renders** focused on **form, interaction, and user experience**.

SKILLS

- **Product Design/UX** : User Research (Surveys, Interviews, Field Study), Information Architecture, User Flows, Wireframing, Prototyping, Accessibility & Usability Testing, Design Systems, Inclusive Design, Interaction Design, Responsive Design, Design Documentation, Developer Handoff, Iterative Design.
- **Visual & Brand Design** : Brand Identity Design, Visual & Graphic Design, Logo Design, Typography & Type Systems, Colour Theory & Application, Visual Systems & Guidelines, Brand Strategy & Positioning, Packaging & Collateral Design
- **Communication & Layout Design** : Layout Design, Editorial Design, Data Visualisation, Grid Systems & Composition, Typography Hierarchy, Print & Publication Design, Information Design, Presentation Design
- **Strategy & Thinking** : Concept Ideation, Content Strategy, Experience Design, Design Thinking, Problem Framing, User-Centered Design, Storyboarding, Narrative Building
- **Software Skills**: Photoshop, Illustrator, InDesign, Figma, RDWorks V8, AutoCAD, Fusion, Canva, Google Suite, Premiere Pro, HTML, CSS, JavaScript, GitHub, Antigravity, Claude, Codex, CorelDraw

POSITIONS OF RESPONSIBILITY

- **Team Leader**, CRD Group Project Jun. 2025
Led a 7-member team for documentation at Eravathody Handloom Weavers Cooperative Society.
